OUR SUSTAINABLE PRODUCT OPTIONS.

## Project partner – PCO Group

Are you planning a new and innovative product? We will assist you with concept and development.

Are you looking for the right packaging for your product? We have the know-how and the ideal partners to work with you on the development of the perfect solution. We will be with you from idea to launch.

Are you looking for new distribution channels for a product? We have experience in opening them up. We have the right contacts and can get your product tested and launched in this particular market segment. And we have the logistics to get your product distributed in the markets.

Are you looking for new, high-quality displays or a fresh, stylish design for your shop? We have a large selection of display solutions to choose from. You don't see the perfect layout for you? We can get together with you and our manufacturer to find the perfect solution.

**Use our extensive know-how!**

## Your product selection at PCO Group

You can find detailed information about our products here in our catalogue, on the international website [www.pco-group.com](http://www.pco-group.com), in our online shop – and of course, our expert staff will be pleased to advise you on the phone or in person.

Our **Popcorn range** encompasses machines from famous manufacturers in all dimensions, high-quality ingredients (Popcorn corn, Popcorn oil, sugar & salt) and attractive packaging.

Our **Nacho range** includes Nacho warmers, dispensers for dips, tasty Nachos and a large selection of spicy dips.

Our **Snack range** encompasses nibbles like our popular Popcorn specialties, Nachos & Dips as well as durable Cotton Candy.

With **IceKing slushy** we offer everything a professional slush range needs: high-quality syrup, slushy machines as well as funny flutes with matching drinking straws.

Our **Pick & Mix** combines elegant design with top-quality sweets. Furthermore our **Movie Mix** offers seven pre-packed mixes to suit every palate. For more refined tastes our **Confectionary** section has customisable jars filled with tasty snacks.

Our **Promotion range** comprises different Popcorn packaging in various dimensions, drinking cups and special premium articles (toppers, drinking straws, keychains, plush etc.) with current blockbuster movie themes.

Even in the field of 3D we will supply you with new and recycled **3D-glasses**.

Our **Drinking cup range** includes cups for hot and cold drinks, lids, drinking straws as well as our reusable IML cups with movie themes.

Our **Hygiene and Cleaning range** includes hygiene dispensers, consumables and cleaning agents.

**Take advantage of our broad product range!**

# Partner for movie theaters – PCO Group

Our team is familiar with all aspects of the cinema industry. We can tailor our services precisely to the needs of each individual customer – from repertory cinemas to multiplex and international movie theater chains.

By planning ahead, the inventory is always adapted to the anticipated need in the market. Thus we can guarantee deliveries even at any time of great demand. We deliver direct to your storage facility – and at a specific times, if required.

Benefit from our experience by detailed conversations – on the phone or in person.

Regular internal and external quality checks guarantee highest quality standards. The external tests are carried out by the food labs SGS and Labor Dr. Böhm.

**Take advantage of our expertise!**

## Partner for the movie industry – PCO Group

The presence in the cinema foyer is an important part in the promotion of a new movie. The attractive appearance fills moviegoers with eager anticipation. PCO supports all major studios as an experienced partner with worldwide or local campaigns.

Different Popcorn and beverage packaging and a broad range of movie branded premiums make for repeated cinema visits. The high-quality products are taken home as a reminder not to miss the upcoming movie and they have fond memories of their visit.

A worldwide customer base and focused advertising, like newsletter, personalized self-mailers and ads assure a broad distribution of the offered products. As the promotional products are simply delivered with the regular orders, PCO can assure promotions in many cinemas.

Also individual requirements of the studios can be covered with a diversified experience in product development.

## Partner for wholesale and retail – PCO Group

In the German food industry we are holding the leading position in Popcorn and Cotton Candy for years. Internationally established supermarket chains, as well as kiosks, video stores and gas stations are among our customers. All products can also be exported worldwide. As an **IFS and organically certified company**, we meet the highest quality standards. Of course, all products can also be produced with a Private Label.

What you can expect from us:

- highest quality standards for our products
- expertise in the export field
- excellent service with high customer orientation

### Popcorn

At PCO you can get both sweet and salted Popcorn and our top products Toffee Popcorn, Crunchy Popcorn and Popcorn for the microwave in the patented folding box. Our Premium Choco Popcorn is pure de luxe temptation: the finest Toffee Popcorn coated with exquisite chocolate in different varieties.

### Nachos & Dips

With our Nachos you offer your customers a real trendy snack. The spicy corn chips are ideally complemented by our Salsa-Dips. Just as popular is our Cheese-Dip, which is also suitable for microwaving. The range of Dips is rounded off with Guacamole and Sour-Cream, Basil-, Sweet-Chili-, Barbecue and Curry-Dip. Nachos and Dips are available both individually as well as in combined packages.

### Cotton Candy

Cotton Candy is popular at all funfairs – but has to be consumed immediately. From PCO, durable Cotton Candy is available in cups or tubs for home.

**Take advantage of our experience in product development!**

## Partner for technical service – PCO Group

### Everything covered, everything tested? Everything's quite simple!

Did you know that DIN VDE 0701-0702 stipulates that inspections must be conducted every 24 months for machines that are permanently fixed, and every year for mobile devices – including proper documentation?

### Security for your devices

This includes, among others, visual inspection, inspection of the earth wire, measurement of isolation resistance and earth wire current, measurement of the touch current, verification of the secure separation from the supply current (SELV and PELV) as well as the effectiveness of additional security installations, the final inspection of the labels, functional assessment, evaluation, appraisal, documentation, and suitable measuring devices.

Sounds complicated? Indeed it is – but not for our customers! Our highly qualified team of technicians and electricians take care of it for you – competently, quickly, and reliably.

### Take advantage of our safety consciousness!

## We are proud of it

At PCO you will find the largest selection of machines – we currently have over 5,300 devices in stock – and competent consultation as early in the planning phase.

- We have over 57,000 replacement parts for the equipment we sell ready for you.
- Your replacement order is shipped immediately: upon ordering by 3:00 p.m. you will receive your order on the next business day upon request, for articles that are on stock.
- Having technical issues? Our highly qualified technicians and master electricians are standing by with professional telephone support – or provide guaranteed fast, competent solutions for repairs, service, or maintenance with our on-site service.

## A strong team

The PCO technicians and our educated master electricians are working for you every day. They are also available by phone, of course.

**Take advantage of our service!**

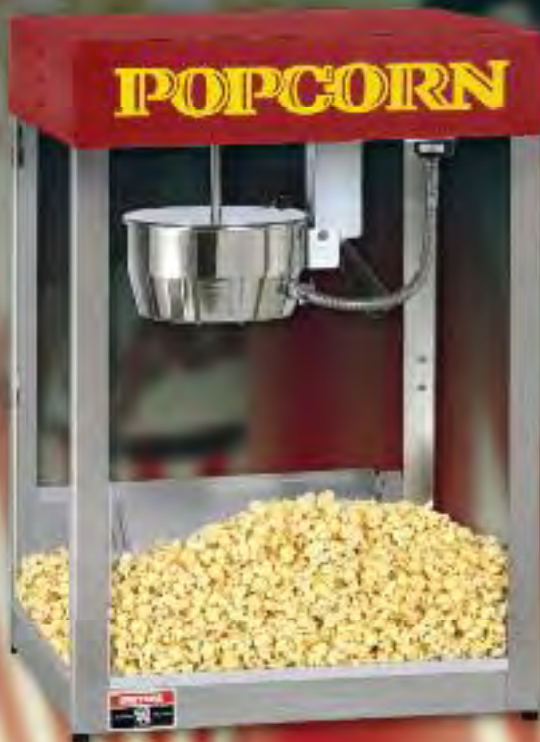

All devices tested by us receive the PCO VDE safety seal

# Fresh Popcorn for crisp sales

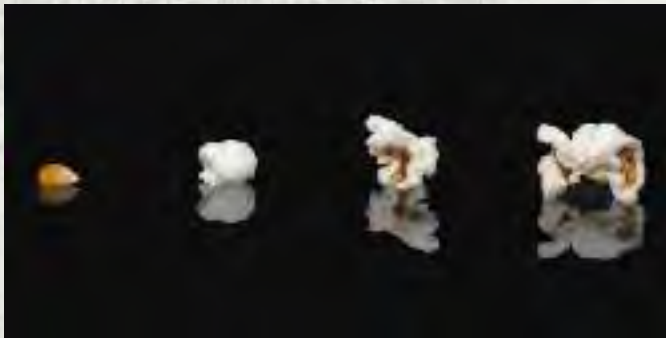

Popcorn is and will remain the leader among movie theater snacks. It is easy to produce and has enjoyed great popularity for decades. And of course it has already conquered many other recreational areas.

## What you should know about Popcorn

### How does corn become Popcorn?

When heated, the moisture inside the corn kernel expands until the hard shell cannot hold it anymore and bursts. In a split second, the heated starch swells under the pressure of water vapor and exits in the form of a foamy structure. It loses temperature and solidifies immediately through rapid cooling. So Popcorn is a small frozen explosion.

### Corn varieties

For the production of Popcorn you need a special popping corn. This special corn used for Popcorn is available in two varieties: Butterfly and Mushroom. The names derive from the shapes of the popped corn kernels.

#### Mushroom

### The volume test

Which type of corn has a higher volume? The one that looks like a mushroom when it pops, or the one that resembles a butterfly?

You'll never guess!

$1 + 1 = 2$ ? Not with corn or Popcorn.

The test is conducted in an MR-16 MWVT (metric weight volume tester). The exact same quantity of corn is measured in this device (250 g).

#### Butterfly

## The test result

Here are the results. How can that be? The individual fluff looks a lot bigger in the mushroom corn.

It's quite simple: The Americans count the kernels per 10 g. For mushroom corn this equates to 49, and 65 kernels for butterfly, or 16 kernels more.

Mushroom kernels also lie closer together and butterfly kernels expand more, due to their shape.

average  
**mushroom corn**  
e.g. PCO mushroom corn

higher volume  
**butterfly corn**  
e.g. PCO Popgold

achieves  
**40%**  
more volume  
in the test

## What does that mean for YOU?

This means that from the same amount of corn, you receive 14 x 3L bags of **mushroom corn**,

but 19.3 x 3L bags of **butterfly Popcorn**.

Can you try it out for yourself? But of course! Simply pop the exact same weight in kernels and fill up! For our test we used 1.2 kg mushroom corn and 1.2 kg butterfly corn in a 48 oz machine. Of course, you can use any quantity you wish, depending on your device. Just please remember to weigh the kernels!

Some promise big fluffs, but the Popcorn's volume is low! The fact is that butterfly puffs look smaller (we believe), but are almost 40 % larger and taste better (we believe). Mushroom puffs look cool (we believe), are firmer to the bite, but possess less volume.

**Of course you will receive the ideal recipe from us for each type of corn – the perfect recommended serving for consistently delicious taste.**

We are also happy to conduct the volume test on site for you. Simply give us a call.

## The regionality principle

And what do you think about the environment? We feel that Popcorn does not belong in plastic sacks. Corn is a wonderful natural product, should be packed in an environmentally friendly way, and should reach both us and you via the shortest possible route. Over 90 % of our corn comes from our neighbours in southern France, after all.

Our contact partners Uwe Bergmann (+49 038826 829 10) and Maria Winkler-Svejkovsky (+49 08821 9501 21) are available for any questions about corn, the corn test, and regionality. Or send us an email.

## How does a Popcorn machine work?

The machine has a tilting kettle that is heated electrically, where the corn is heated in no time to 220°C. The kettle is filled with corn, oil and sugar or salt. In the kettle there is an agitator that constantly stirs the ingredients. This way the heat and the ingredients are distributed evenly. The popped kernels push open the light cover and the finished Popcorn drops into the heated cabinet.

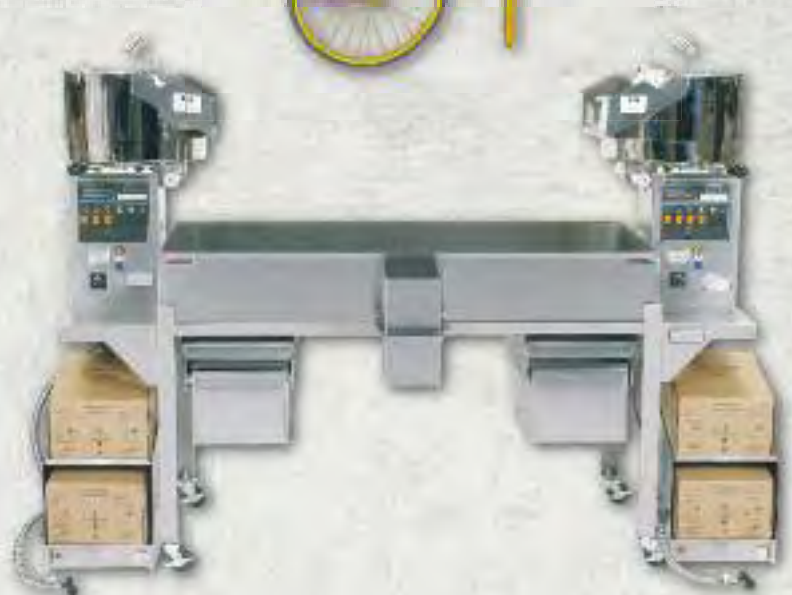

## Popcorn machines in different sizes and with different features

The possible applications of Popcorn machines are very diverse and so are the models and features of Popcorn machines. The so-called counter models are equipped with a glass-enclosed stainless steel cabinet and the kettle for the production of Popcorn is mounted in the top of the cabinet. The presentation of the Popcorn directly in the machine reinforces the impression of particularly fresh Popcorn among customers. Popcorn machines of the middle category may already be equipped with an oil pump.

The larger cabinet Popcorn machines are equipped not only with a larger kettle and a spacious cabinet, but also with a grease and active carbon filter system. Optionally, there is a suitable base for all the devices. Here ingredients such as corn and sugar can be stored in addition to the oil pump.

For the production of Popcorn in large quantities an industrial machine is recommended. The kettles are not mounted in a cabinet, but on a production table. Equipped with one or two production heads, they are set up in a separate "Popcorn kitchen". The finished Popcorn is heated in special warmers and presented at the counter.

## Popcorn warmers

The wide range of Popcorn warmers provides the right solution for each counter. Cabinet warmers find their place on the counter. The cabinet is equipped with shelves. Here filled Popcorn bags or tubs are heated and stand ready for sale.

For larger quantities, suitable warmers are built into the counters. These built-in warmers are available in various sizes and designs. In the warmers, mirrors create the illusion that there is an "unending" supply of Popcorn stored. The installed warmers keep the loose Popcorn warm and it can then be filled for selling. For greater needs there are additional floor to ceiling warmers in different designs. The right solution is available for every customer.

Fresh from your Popcorn kettle:

# Winter Wonderland

## KETTLE POPCORN

### Best Taste – Simple Preparation

Our kettle Popcorn is easy to prepare in your own Popcorn machine; you'll simply use our Kettle Popcorn Mix instead of sugar.

Kettle Popcorn Mix Winter Wonderland with Christmas spices cinnamon and clove, Ginger, star anise, nutmeg, coriander ... start your own gourmet popcorn business today.

You can serve the finished, fresh-roasted kettle Popcorn in attractive folding boxes with embossed designs and spot varnish decorations.

# Caramel

## KETTLE POPCORN

### Ready to Go

Are you interested in our product, but don't want to prepare it yourself? Of course, you can also purchase ready-made containers of kettle Popcorn from us in various sizes.

With our gourmet caramel blend, you will enjoy crispy, thickly coated toffee Popcorn, rounded off by a fine hint of butter

You can purchase folding containers in size  
1 (150 x 100 x 60 mm) for approx. 75 g,  
2 (150 x 100 x 100 mm) for approx. 125 g and  
3 (150 x 100 x 140 mm) for approx. 200 g  
of Popcorn.

# Hombre Nachos & Dips – the best solution for everyone

## Hombre Nachos

Our Nachos are available in 125 g bags with an appealing design. Naturally we also supply bulk Nachos in larger bags (up to 800 g) for sales out of the warmer.

## Hombre Dips

There's something for everyone within our selection of Dips: a range of mild, spicy and hot Salsa-Dips, various Cheese-Dips, Guacamole, Basil-Dip, Curry-Dip, Barbecue-Dip, Sweet-Chili-Dip and Sour-Cream. And the packaging is as diverse as the products they contain, stretching from portion packs to jars and dispenser pouches. All in the appropriate size. The hot and spicy Hombree Jalapeño Peppers also come in a range of different-sized packs.

## Nacho trays

For the open sale of Nachos we have every type of tray you could wish for. Plastic trays are available in a number of sizes, shapes and colours. We also have cardboard trays with printed designs – a real eye-catcher.

## Equipment

Nachos sold in trays – and the Cheese Dip, too – should be eaten warm. Naturally we can supply you with the necessary equipment for every situation and for every POS set-up – from warmers for individual portions to high-tech pumps. And of course we are happy to advise you on the best equipment.

Nacho island

A | Nacho island

Our new Nacho island is the perfect all-round self-service unit: with 4 Nacho warmers, 8 narrow and 2 wide Dip dispensers, and 8 food coolers (Dip dispensers and food coolers must be ordered separately!), you can offer your customers a comprehensive and highly diverse range of products. The bottom portion is equipped with drawers and lockable cabinets for storing your reserves. The hood comes with two LCD widescreen monitors and two neon signs. The LED lights on the bottom and the hood can be set to glow in different colours and effects via remote. The island is also equipped with wheels, making it easy to use in a variety of locations.

# Nachos & Dips Snacks

You can find Hombree Nachos & Dip products in great varieties from page 105.

Eating Nachos and Dips as a combo is the best way to enjoy them, so we have a range of solutions for you. No party is complete without a Nacho Party Sonne, which holds Nachos and Dips for a number of people and to suit a range of tastes. Individualists may want to eat their Nachos from a practical IML-cup with a Dip attached to the lid in easy reach. The latest gimmick is our Nachos and Dip-Box. A 360° perforation and a lateral flap: with a few simple movements the box turns into a real Nacho tray. 100 g Hombree Nachos plus Dip – Salsa-, Cheese-Dip or Sour-Cream.

# IceKing slushy - a fruity delight

With IceKing slushy we offer all the products you need for your professional slush range: high-quality syrup for making iced slushy, slushy machines and funny flutes with matching straws.

## IceKing is more

Colorful slushys, fruity lemonade and light milkshakes – IceKing has everything slushy fans of all ages could ask for.

### IceKing slushy

IceKing slushy now comes in a dozen different fruity colours and flavours. We recommend that you try a mixture of flavours from one of our unique flutes then you can decide whether you prefer a single flavour or a combination, and it looks great too!

Interested? Or maybe already convinced? PCO will supply you with all the equipment needed for a successful slush shop. The best ingredients for the best slush. IceKing doesn't just guarantee a taste that's second to none; we also take our ingredients very seriously. Our top-quality syrups have zero preservatives and no harmful colourings, but they're still popular for their bright colours. The syrup comes in hygienic bag in the box packs which provides product longevity, keeps waste to a minimum and is easy to dispose of.

### IceKing Lemonade

A new way to enjoy chilled lemonade. The flowing lemon flavoured fountain in the IceKing Lemonade Machine is bound to get mouths watering and there's no beating it straight from the tap. The high-quality cups look great and are reusable. Plus the dome-lids are designed to take one of our many funky toppers.

### IceKing equipment

It goes without saying that PCO will supply you with the best equipment for each product and counter set-up. Machines with one, two or three containers – 10 or 15 litres – with or without base. You choose. We will happily advise you. On top of that you'll get an instruction DVD to help you with installation and cleaning. Training new staff is child's play with our equipment.

### IceKing packaging

The IceKing slush packaging is really eye catching, making it the supreme advertising vehicle. Flutes with multicoloured slush and happy kids' faces – "I want one, too!!!" and it's not just our flutes of all sizes that are a big hit with kids of all ages, our dome-lid cups and toppers are just as popular. The new flutes with funny hats enhance this effect even more. All cups and flutes can be taken home and reused, or better still: spoil your customers with a great refill offer.

# The most popular snacks for the retail trade

Fresh Popcorn, Nachos and Dips have quickly established themselves as the most popular cinema snacks. These are not only made for Cinemas, but also a delight to go or at home. This range is complemented with our durable Cotton Candy and selected organic products.

# Popcorn, Nachos, Cotton Candy

## Crunchy Popcorn

That is temptation de luxe. Exquisitely delicate Popcorn in the flavors dark chocolate, milk chocolate, white chocolate, caramel, winter wonderland, forest fruit strawberry and coconut caramel, offering a refined taste experience. The delights are now complemented by the new flavours Orange, Raspberry, Green Apple and Coffe. For the sense of salty flavours we offer Cheese, Paprika Chili, Salsa Chili as well as Parmesan Toffee.

The delicacy is delivered in bags or reusable cups. This keeps the Crunchy Popcorn fresh and irresistibly delicious for longer.

## Always up to date: specialties in unique packaging

We are also pleased to present to you our specialties Cinema Popcorn, Toffee Popcorn, Choco Popcorn and Premium Choco Popcorn, as well as Cotton Candy, in attractive special designs. Currently emoji, Vic the Viking, and Maya, the Bee are promoting our products, making them even more attractive.

## Microwave Popcorn

Our Pop'Box offers fresh Popcorn fun out of the microwave and impresses with its unique and patented folding system. The box that is initially folded turns into a large folding box by pulling two tabs. In the microwave, this fills in a few minutes with fresh popcorn.

## Fun-Kicker products

Soccer is one of the world's most popular sports. With our Fun Kicker product line there is the perfect snack for all those who enjoy playing or those who would rather watch. Whether Popcorn or Cotton Candy, at the sportsground or in a television armchair: Fun-Kicker offers high-quality products in sports packaging.

## Organic range

The organic range of PCO currently includes organic Popcorn, organic Microwave Popcorn and organic Cotton Candy. All products feature the organic seal. For the production e.g. of Poppy Organic Popcorn, we use organically grown corn in addition to pure organic raw cane sugar. All our other ingredients are likewise organically grown.

## Nachos & Dips

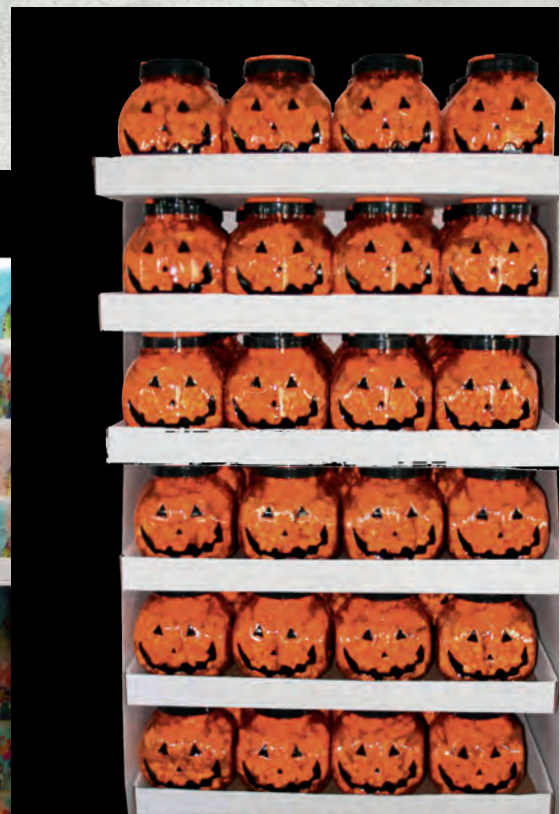

In cinemas they have become indispensable: delicious, spicy Nachos & Dips. For the requirements of retail we offer the popular products and also perfectly fitting sales solutions – whether display cartons or attractive displays.

## Durable Cotton Candy

Cotton Candy is popular at all funfairs – but has to be eaten immediately. PCO can provide durable Cotton Candy in cups for the use at home. You can get our Cotton Candy in various flavors and packaging.

## Private Label

Whether for Popcorn, Nachos or Cotton Candy, we also produce your individual designs.

## Movie Mix

Mallow and Scary are the newcomers to the Movie Mix line. Bright red giant strawberries, white-blue clouds, and sweet penguins made from delicious sugar foam – this all makes up the Mallow Movie Mix in a matching tumbler. The Scary Movie Mix offers a colourful selection of fruity gummies and other sweets with a gruesome aesthetic – from eyeballs and ghosts to tarantulas. The containers come with a sealed dome lid and crowned with a funny topper figurine.

**Hombre Nachos and Dip Box  
 al Cinema Feeling at Home**

Hombre Nachos & Dip not only taste like  
 ma – it feels like it. Perforation and  
 on flap allow to convert the box into a  
 nacho tray in no time. And this is how  
 o it:

remove the foil and open the box along  
 e perforation.

the box you will find a bag of crunchy  
 nachos and the Dip of your choice.

in the side of the box you will find a  
 carton flap to unfold for the Dip. Set the  
 open Dip in the side flap.

4. For perfect enjoyment, open the bag of  
 Nachos and fill them into the open box.
5. Now you can sit back, relax and enjoy.

# Equipment

## Pick & Mix stands – the right choice for everyone

The Pick & Mix stands are now also available with LED lighting

The elegant furniture has a black high quality painting and is equipped with LED lighting. The stylish black suits every interior concept perfectly and emphasizes the bright colours of the sweets. The LED lighting sets the great variety into a perfect light, which makes product pictures unnecessary. To pitch the sweet seduction to the customer the quality products speak for themselves.

In addition to the unique design the Pick & Mix stands also have a lot of practical details, that make the handling in the daily business easier. For example the stands can be closed within seconds with a roller blind, when it is not in use. In the base is a handy cabinet where sweets and bags for refilling can be stored right on the spot.

With the different sizes PCO can offer the right stand for every shop. We are very pleased to consult you individually to find the perfect solution.

The sweets are delivered directly in the boxes that are used in the stands. This makes complicated refilling obsolete. The high quality plexi lid is simply transferred from the empty to the full box and it is ready for use again. The lids are equipped with a buffer, keeping them from slamming shut.

Pick & Mix stands

# Movie promotion: our pop stars

It's a known fact that nice packaging is an eye-catcher and seduces consumers more likely to buy. Our range of different packaging formats in a multitude of sizes and featuring motifs from the latest films ensures that you can respond to any customer requirements.

## Meet your movie heroes at the cinema counter

With all the menu trays, IML-cups, toppers, Popcorn bags, boxes, tubs and tin buckets your counters will be a feast for the eyes.

Sign up for our newsletter and get information and order forms relating to all the latest blockbusters. Then you'll always be up to speed on the latest designs: [www.pco-group.com](http://www.pco-group.com)

## Tin buckets

Our tin buckets: perhaps the most irresistible Popcorn packaging. They are printed with a super shiny look and embossed in a premium fashion. The tin buckets come in sizes 85 oz, 130 oz, and 230 oz. The lids can be ordered separately.

## Menu-Trays

Our Kids-Menu is the popular way to ensure the counter tills keep ringing. The patented Kids-Menu-Tray with matching IML-cup is only available from PCO. It has been so popular that we now produce the patented tray in four sizes – for cups of 0.3 L, 0.5 L, 0.75 L and 1.0 L. That way you cover all target groups.

Kids-Menu-Tray for 71 oz Popcorn and a cup of 0.3 L

Kids-Menu-Tray for 71 oz Popcorn and a cup of 0.5 L

Menu-Tray for 106 oz Popcorn and a cup of 0.75 L

Big-Menu-Tray for 155 oz Popcorn and a cup of 1 L

## Top the PET bottles

You can show off our Kids-Menu-Tray with PET bottles, too. A folding feature in the Kids-Menu-Tray steadies the bottle and the patented adapter attaches the topper to the PET bottle.

The new turnable adapter allows to drink without removing the topper.

## Ever popular:

With our Penguin Menu you have a Menu motif that you can offer your customers, whatever films are showing. Which means ... blockbusters.

## Well packaged

We supply you with a wide selection of popcorn bags, boxes, tubs and reclosable IML-tubs.

Bags are the classic type of Popcorn packaging, with a range of sizes to suit every target group.

Our folding boxes provide a more robust alternative, likewise available in different sizes. Now we offer brandnew boxes in the Popcorn bag formats.

The stars of the counter are our size-5 Popcorn tubs – great for accommodating even two hands ...

As of now, we are providing tin buckets with premium, shining print and imprint. The tin buckets hold 85, 130 or 230 oz and are ideal for Popcorn.

Another winning format is our deluxe 1.6 L IML-tub with its fantastic motif, its lid for preserving Popcorn freshness and the option to add a whacky topper to the packaging.

1.6 L IML-t

## Our IML-cup: more than just a cup!

We regularly produce high-quality IML-cups to coincide with the release of blockbusters. Printed to photo quality, the cups are available in different sizes, depending on the film, and they can of course be re-used. Just think about camping, picnics, children's birthdays ...

But what does IML actually mean? Read more on page 134 in our chapter on cups and drinking straws.

2 L

0.3 L

0.5 L

## Topper on top

We get pleasure out of topping our products. Many of our hit products designed for children to have cups that we have enhanced by attaching topper figurines to the lid. Guaranteed to trigger the collector's instinct!

Dead Pool

Black Panther

Avengers – Infinity War

# Premiums: love at first sight

We simply love our premiums. Beside the toppers, our product range covers irresistible products such as drinking straws with figurines, key chains, plush and much more. Here is a small selection of promotional features from our range of merchandising. To put it perfectly in scene we also provide you very stylish merchandising displays.

Blowm

Lunch boxes

Straws with turnable figurines

Clothes

Pencil case

Breakfast platters

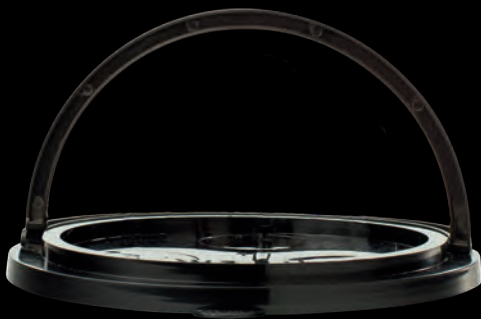

MOVIE PROMOTIONS

Plush

## Through the year with our tin buckets

Christmas, Easter, Valentine's Day, Halloween or Hollywood heroes: our tin buckets get you through the year wonderfully. The shiny and noble embossed buckets are ideal for popcorn ... or other wonderful gifts. You also get all buckets with matching lids and handle.

# Mega Mugs

Our 2-liter superhero mega mugs are now available in six different designs: Batman, Aquaman, Cyborg, Superman, The Flash, and Wonder Woman. All against thirst – drinking straws included.

Aquaman

The Flash

Cyborg

Superman

Wonder Woman

Batman

## Film boxes

You can catch your customers' attention with our vividly colourful film boxes: perfect as gift or coupon packaging, or for storing small items.

Filmboxes for Cars 3, Frozen, Paddington 2, My little Pony, Pirates of the Caribbean and Art at the cinema: Ø 16 cm  
Happy Birthday and Merry Christmas: Ø 16 cm, Easter (2 designs)

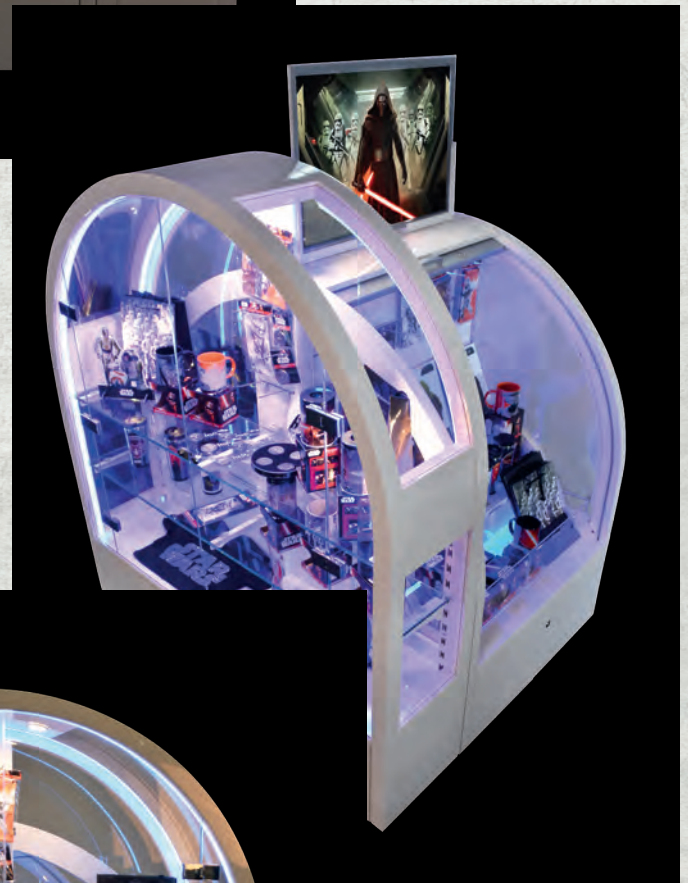

# Merchandise Cabinet

The perfect presentation for your advertisements: this unique stand is a true attention-getter. Colour-changing lighting enhances its effectiveness, putting your promotional items in the right light. The shelves are movable and the hooks adjustable, so every item has its place.

Merchandise Cabinet Glass Cabinet

Dimensions: D: 70 W: 85 H: 185 cm  
**article no. 7S0228**

We get rid of any size of thirst

Cold soft drinks, icy slushy, hot coffee or tea, branded cups, neutral cups: from PCO you get the right cup for every thirst.

## IML-cups: What is IML?

The term "in-mold labeling" is derived from the production technology: A photo quality printed label of polypropylene (PP) is placed in a mold, which already has the shape of the end product – for example a drinking cup. Subsequently, the liquid PP is injected into the mold. There the plastic melts with the label and takes the shape of the mold. Result: label and packaging form a single entity. The outer surface structure of the cup can be smooth or have a fine structure. The PCO Group offers this cup and cover in different variants:

### A | IML-cup, 1.0 L

IML-cup, 0.75 L

IML-cup, 0.5 L

IML-cup, 0.3 L

### A | IML-cups

### B | Lids are available

- in different sizes
- in different colors
- with and without topper cutout
- with and without hole for a straw

### B | Lids

## Movie promotions

For current blockbusters you will find our regular quality IML-cups. The cups are printed in photo quality and are available in different sizes, depending on the movie. For many animated movies the cups are additionally enhanced with funny toppers that are attached to the lid.

For more information on cups with current movie themes, see the chapter about movie promotions starting on page 119.

## Private Label

You have a need for reusable drinking cups or unique packaging? We are happy to produce for you exclusive IML-cups or drinking cups made of cardboard according to your individual designs. The printing is done in a minimum print run of 10,000 (IML-cups) and/or 50,000 (cardboard cups) pieces per size and design.

**D | 3D Glasses RealD Clip-on**  
20 pcs / carton  
article no. 6390044

**E | 3D Glasses Clip-on**  
25 pcs / carton  
article no. 6390049

## Our unique cleaning service:

We have created conditions for the professional cleaning and re-packaging of used RealD Glasses.

Collected in the movie theater, used 3D-Glasses will be picked up, transported to PCO Group in Dassow and then sorted. The number of glasses that are no longer cleanable (for example due to larger scratches on the lens) and the number that can be cleaned, is documented. In a period of four to six weeks you receive cleaned, disinfected and newly packaged glasses, returned for use in the movie theater. Only the glasses that could be cleaned are delivered back to the cinema and charged for.

## Equipment

With our dispensers for soap, towels and toilet paper, you get a complete system from one source. In simple white or smart high-grade steel, there is a suitable requirement for every environment. Of course we also offer you a wide range of suitable refill products.

In addition, you will find that we provide a wide range of the detergents which were developed especially for commercial requirements. Whether it's kettle cleaners for Popcorn machines, glass cleaners, high-grade steel care or universal cleaners, all products stand for the highest productivity and are especially hypoallergenic.
